My name is Jared Counts, and I do not believe that Microsoft should be mollycoddled by the federal government. Letting them buy their way out of this suit would be letting them exercise what got them into this suit in the first place. We cannot have one corporation dictating how the world does their computing, and silencing the competition through the sheer weight of their numbers and/or money. They are not l33t. They deserve de4th. Thank you.
